

Julie L. Gerberding, MD, MPH

Julie L. Gerberding, MD, MPH, is the director of the Centers for Disease Control and Prevention (CDC) and the administrator of the Agency for Toxic Substances and Disease Registry (ATSDR). She is the former director of the Division of Healthcare Quality Promotion of the National Center for Infectious Diseases (NCID) and former acting deputy director of NCID. She is also a member of the American Society for Clinical Investigation (ASCI), American College of Physicians and a fellow in the Infectious Diseases Society of America (IDSA).

Dr. Gerberding has authored or co-authored more than 120 peer-reviewed publications and textbook chapters and contributed to numerous guidelines and policies relevant to HIV prevention, post-exposure prophylaxis, management of infected healthcare personnel and healthcare-associated infection prevention and control. Her editorial activities have included appointments to the editorial board of the *Annals of Internal Medicine* and served as associate editor of the *American Journal of Medicine*.

Dr. Gerberding has been a consultant to the National Institutes of Health, the American Medical Association, CDC, the Occupational Safety and Health Administration, the National AIDS Commission, the Congressional Office of Technology Assessment and the World Health Organization.

Dr. Gerberding received her medical and undergraduate degrees at Case Western Reserve University in Cleveland, Ohio. She completed her internship and residency in internal medicine at the University of California, San Francisco (UCSF), where she also served as chief medical resident before completing her fellowship in clinical pharmacology and infectious diseases at UCSF. Dr. Gerberding received a masters in public health from the University of California, Berkeley.
